BSP compact high efficiency homogenize production plant machines					
Model	BSP-5	BSP-100	BSP-250	BSP-500	BSP-1000
Full volume(L)	6	120	300	515	1000
Max. work capacity(L)	5	90	230	430	850
Contact material	SUS316/304	SUS316/304	SUS316/304	SUS316/304	SUS316/304
Anchor stirrer power (KW)	0.25	0.75	1.1	1.5	3
Stirrer Mixing speed (rpm)	0~86	14~43	11~32	8~26	7~20
Homogenize power (kw)	2.2	7.5	15	15/22	22
Homogenize speed (rpm)	0-2880	0-2880	0-2880	0-2880	0-2880
Vacuum System	Support	Support	Support	Support	Support
Heating system	Support	Support	Support	Support	Support
Cover lift and down	Electrical	Hydraulic	Hydraulic	Hydraulic	Hydraulic
Cover connections	Watch window, light window, spray ball clean, vacuum, spare one				
Bottom homogenize connections	Two material hopper inlets, circulation pipe, fine product outlet				

The Standard Production Plant SP is the most efficient production plant for fine food on the market. Such as **Mayonnaise, ketchup Sauces** etc.
The machine being integrated into the SP plant, it only needs 5 minutes to produce 500L of mayonnaise - and this including feeding of the raw material, emulsifying and discharge!

ADVANTAGEs

-Very short batch times, min to 5 minutes only.
-Quite compact size, save space. New lift up way, make it suit to work in a short space.
-Consistently high product quality.
-Excellent homogenization through rapid emulsification.
-User-friendly operation.
-Quick and easy to clean.
-Used to manufacture a wide range of products.
-Stirrer and disperson deivce with speed control
-Easy to add additive through the separate hoppers.

Berbica

-Suitable for highest viscosity products.
-The first manufacturer in China to compare with IKA in SPP plant system.
